

As an XM Satellite radio subscriber, I oppose HR 4026! Please let the PEOPLE decide what services we need. Do not let the The National Association of Broadcasters, dictate to the consumers what we may use!!

I benefit enormously from listening to XM Satellite Radio and its traffic and weather channels. I PAY for the privilege of commercial-free broadcasting. I PAY for the privilege of instant traffic and weather reports. Satellite radio provides variety and quality that are not available elsewhere. I pay for these services and it should not be up to the National Association of Broadcasters to dictate what I am permitted to hear. I respectfully urge the FCC to reject the NAB's petition 04-160 and to support XM's ability to provide the kind of programming that I demand and deserve.
